ROBESON is for Blaine. Where is Keifer?

THE Peoria republican convention was very general in its suggestions of friendship for the laboring men.

AFTER the prohibition era opens in Decatur, the time between acts at the opera house will not be so long. It will not be necesary for so many persons to take a short walk.

BLAINE called Roscoe Conkling a turkey-cock, because of his high mighty loftiness. One thing is true of him, he kept himself clear of the mud in dirty political times, which is more than can be said of Mr. Blaine.

THE Republican says the Chicago News is two thirds democratic. It is republican, but a kicker. It manifests some courage during the winter and early summer, but when election season comes on it is enthusiastically republican

THE convention of highway commissions in session at Springfield this week is well attended It is hoped that good results will follow, that something will be done towards giving the children good paths to school and the people good roads to market.

LEAVENWORTH is in prohibition Kansas. A movement has lately been inaugurated there to try to have the saloons closed on Sunday. It is against the law to keep saloons any day, but Jay Hawkers there propose to take one day at a time

THE delegates to the republican state convention at Peoria, do not speak in flattering terms of the feeding accommodations of that city, and in the matter of drinks the place is said not to be as good as Springfield The state capital has had the political conventions so long that its hotel and saloon keepers know just what the average politician eats and drinks, and provides accordingly

THE splendid Aultman & Taylor thresher and separator and traction engine which has been christened the "Decatur Review," has been sold, but is still on exhibition at the rooms of Messrs Leavitt & Royal in this city. Like the REVIEW in social and political life, this engine will demonstrate itself to be a grand power for separating the pure grain from the chaff and straw. Like the REVIEW it will do a great deal of thrashing this fall,

THERE is a report on the streets that Alderman Lake thinks of resigning so as to devote his whole time to making his canvas for member of the state board of equalization We do not believe it. All he needs is the courage to do what he believes is right. He has it in his power to grant license or not. He may lack the necessary courage, but there are periods in men's lives which try men's souls, and this is one of them to Mr. Lake.

THE arrest and binding over of Woody, of Warrensburg, for illegal voting, calls to the minds of thinking people the fact, that voting at elections is a good deal of a farce. It is generally conceded that in close elections, the party having the most money will win. A campaign fund is raised for the purpose of corrupting voters Business men and others subscribe five, ten, fifty and one hundred dollars each toward expenses, a large portion of which is to influence voters. In our own city men stand around on election day and are willing to barter their voting privileges for amounts ranging from one to twenty dollars. Men who sell their votes should be disfranchised,

CARTER MEDICINE CO., New York.

Rev. Father Wilds'

EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 54th St., New York, May 16, 1882.

MESSRS. J. C. AYER & CO., Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

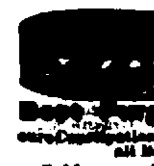

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.

CAPITAL CHRONICLES.

The Charges Preferred Against General Swaim to Be Investigated by a Court-Martial.

Comptroller Knox Exonerated — The Trade-Dollar Question—The Pacific Railway Cases.

The House Resumes Consideration of the Tariff Bill—Night Sessions to Be Held—The Senate.

General News from Washington.

BATEMAN'S CHARGES TO BE INVESTIGATED.

Secretary Lincoln sent a letter to the President yesterday in reference to the Bateman charges against Judge-Advocate-General Swaim. After detailing the history of the matter he commented unfavorably on Swaim's lame answer to the charges, and suggested that the welfare of the service would require Swaim's perfect vindication. He therefore recommended the appointment of a court of inquiry. President Arthur at once authorized the issuance of an order for a court of inquiry, consisting of Generals Pope and Augur and Inspector-General Sackett, to meet in Washington May 5.

COMPTROLLER KNOX EXONERATED.

The House Committee on Banking has agreed that a further investigation of the charge against Government officials rising out of the failure of the Pacific National Bank of Boston is unnecessary. Its report will say that there is no proof sufficient to justify the committee in entertaining the charge of conspiracy, and that the increase of the bank's capital stock is not a matter to be decided by the committee. While the Comptroller of the Treasury may have been open to criticism in some instances, there is nothing to show that he was actuated by an improper motive.

THE PACIFIC RAILROAD CASES.

The House Committee on Pacific Railroads concluded the consideration of the proposed amendments by Mr. Thurman to the Sinking-Fund act. They extend the provisions of the act to the Kansas Pacific, Sioux City & Pacific, and Central Branch of the Union Pacific Railroads. The Secretary of the Treasury is authorized to invest the sinking funds of each of the subsidized companies in first mortgage bonds of the said companies, or in any bonds or securities of the United States, at his discretion, or he may, with the assent of the companies, apply the same to the extinguishment of the interest or subsidy bonds, the Government to refund the same on demand if at any time it becomes necessary in order to meet any debts or obligations of the said corporations prior in lieu to the said interest.

MISSOURI RIVER COMMISSION.

The full Commerce Committee authorized Mr. Clardy to report the bill for the Missouri River Commission to the House with favorable recommendation. The bill, as finally agreed upon, authorizes the appointment of a committee of three from the army and two from civil life. The salary of the last mentioned is to be $2,500 each per year. Mr. Clardy, in his report, dwells largely on the condition and future of the Missouri River, showing its possibilities in transportation and the necessity of a system for its improvement. He quotes largely from Suter's reports, and estimates the cost of the improvements at $10,000 per mile.

FOSTER'S RETURN.

Hon. John W. Foster, United States Minister to Spain, who arrived in Washington Monday, has come here to confer with the authorities regarding the details of the proposed commercial treaty between Spain and the United States. It is said on undisputed authority that his visit has nothing to do with an alleged plan for the purchase of Cuba by the United States, nor has it any bearing on the insurrection in Cuba.

VIGILANCE ENJOINED.

The Secretary of the Treasury and the Attorney-General have issued orders to their agents in cities bordering on the Gulf of Mexico for the strict enforcement of the neutrality laws. The agents are instructed to keep a sharp lookout for Cuban insurgents, and to intercept any filibustering expedition bound for Cuba. The revenue steamers Forward and Seaward are cruising in the Gulf on patrol duty.

THE TRADE DOLLAR.

The Senate Finance Committee has decided that the bill for the redemption of the trade dollar must contain a provision deducting the number received from the monthly purchases of bullion, and that the time must be so limited that the amount now in circulation in Asia can not be brought back.

THE GREELY RELIEF CREW.

Commander Schley has orders to take the Thetis, Bear and Alert to the coast of Greenland, or further north, in search of Lieutenant Greely and his comrades. All his officers and men are enjoined by Secretary Chandler to perform any duty at sea or on land to which they may be assigned.

HOUSE.

In accordance with the resolution of Monday, the House met at 11 o'clock a. m. Mr. Dingley asked unanimous consent for the present consideration of the bill authorizing the Secretary of the Treasury to invest lawful money deposited in the Treasury by the National Banking associations for the retirement of their circulating notes. There was, he said, no more important measure than this, which related to the currency of the country, that could possibly be presented to Congress. It was recommended by the Secretary of the Treasury and had the unanimous approval of the Banking and Currency Committee. Under the expiring law, the National banks, in withdrawing their bonds and going into liquidation, were obliged to deposit in the Treasury lawful money, and the currency was contracted to that extent. "Wipe out the whole system," suggested Mr. Weller, "I object." Mr. Dingley hoped the objection would be withdrawn, because the bill was necessary to prevent the contraction of the currency at the rate of $2,000,000 a month. Mr. Weller remarked that nothing which could be said would induce him to withdraw his objection, and so consent was not granted. On motion of Mr. Budd, a resolution was adopted, setting apart the 3d of May for the consideration of the bill amending the Chinese Immigration act. On motion of Mr. Morrison, an order was made providing for evening sessions, until further notice for general debate on the Tariff bill. The House then went into Committee of the Whole, with Mr. Cox, of New York, in the Chair, on the Tariff bill. Mr. Wellborn said the measure was not an effort to readjust many of the incongruities of the present tariff system, but a step in the policy which looked to a reduction of all duties to a revenue standard, and for that reason met his approval. Protection laid a destructive burden on all the agencies of commerce, and was a monopoly of the worst form. It was an illegitimate and pernicious exercise of the right of taxation. It would be difficult to find in the whole range of the English language more hypocritical words than "incidental protection." He protested against this fraud in the use of language. If protection were good, right and constitutional, let it stand on its own merits and not lean on something as respectable as revenue. "Incidental protection," as a designation of the [illegible] was a practical illustration of Satan masquerading in the habiliments of the court of Heaven.

Mr. McKinley said it was gratifying to know the real attitude of the Democracy in support of the present system of taxation and protection. He congratulated the party that under the leadership of the honest statesman from Illinois it had announced its true platform. The real great issue between the parties was whether there should be free trade or a revenue tariff which would at the same time care for the great industries of this country. He would not support the bill under any circumstances because a reduction of twenty per cent would destroy some great industries. The horizontal bill bore on its very face the highest evidence of absolute incapacity. It was the invention of indolence. The only persons who demanded a reduction of the tariff were the wealthy members of the free-trade clubs of Brooklyn and New York. He held that the bill would reduce the price of labor, and appealed to the Democratic party not to take a leap in the dark by passing the bill. It should first discipline its mutineers. Mr. Herbert made an elaborate argument in favor of the bill.

The committee then rose, and the House at once went into Committee on the Pension bill. Mr. Rosecrans's amendment transferring the duties of pension agents to the pay department of the army was lost. Another amendment was accepted, and the committee arose and reported the bill to the House. It was then passed and the House adjourned until evening, when Mr. Evans, in the name of fourteen hundred manufacturers of his district, protested against the bill. Messrs. Eldredge, Cannon and Lanham made arguments, after which Mr. Dockery said that protection wrung from the consumers annually more than one billion dollars, which went into the coffers of the manufacturers. Labor derived no benefit from this. The Democrats were not free-traders, but wanted a just tariff. Several other members spoke, and the House adjourned until this morning.

SENATE.

After the Senate had attended to routine business, on motion of Mr. Miller the body went into executive session, and for three hours considered the President's recommendation that Collector Wicker, of Key West, should be removed. It was contended that his acts of open sympathy with the Cuban insurgents were ample grounds for his dismissal. After a long discussion, the Committee's report, advising the dismissal of Wicker, was adopted. When the doors were reopened Mr. Hoar moved the consideration of bills under the operation of the five-minute rule. Mr. Plumb consented to allow the Pleuro-pneumonia bill to go over until to-day. The bill to allow the building of a bridge at Nashville was passed. The Private Pension bills were then taken up in order and several of them passed without debate. The bill to accept certain agreements made with the Sioux Indians and to grant the right of way to the Chicago, Milwaukee & St. Paul Road through the Sioux reservation in Dakota was passed without debate. The Pleuro-pneumonia bill was then laid before the Senate, and an adjournment until to-day was had.

Ruled with an Iron Hand.

DAYTON, O., April 23.—For some time past complaints have been made about the brutality of General M. R. Patrick, Governor of the National Soldiers' Home near here, toward inmates. He is alleged to have discharged crippled and disabled men until the county infirmary is filled with them, while others lay in station-houses and other refuges. Insane men have been discharged from the institution for some trifling cause, drummed from the camp at the bayonets' point, and while the Governor admits that they are entitled to the privileges of the Home, he refuses to admit them. The matter has come up before the Board of Managers.

Gould's Confidence in Two Stocks.

NEW YORK, April 23.—Jay Gould denied that he had been assisting the bears and said he had, instead, been a buyer. He also said the trunk line troubles were in process of adjustment and that the commissioner expected to arrange the east-bound pool next week. Western Union stock had, no doubt, suffered slightly on account of the agitation about postal telegraphy, but the property was improving and its business increasing. The severe winter caused a decrease in the earnings of the Union Pacific Road, but the business was increasing every week. He had not sold a share of Western Union or Missouri Pacific since he was elected a director.

The Ship-Railway Scheme.

NEW YORK, April 23.—Captain Eads, of jetty and ship-railway fame, has returned from Europe, where he went to invite capital to embark in his Tehauntepec scheme. He considers the trip a success, and says English capital will back him to the extent of the $50,000,000 or $75,000,000 needed to put the ship railway into operation. Captain Eads goes from here to inspect his work on the jetties, and will return to London next month on ship railway business. His proposed route will shorten the trip to San Francisco by 150 miles less than the Panama route.

The Alert Ready to Sail.

NEW YORK, April 23.—The Alert, which, together with the Bear and the Thetis, compose the Greely relief expedition, arrived at the navy yard yesterday afternoon. Her last expedition to the Arctic was in 1875-6 when Sir George Nares, K. C. B., commanded her. Since her return she was at the Australian station until 1882. She is a vessel of 1,331 tons.

Brown Bros. & Co., are the largest shippers, sending $1,000,000 in bars. The amount may be increased to-day by the late hour of sailing. The total exports of specie since the beginning of the present movement amount to $27,285,000.

TORONTO, Can., April 23.—On Good Friday, Antonio Maletta, an Italian laborer, was struck with a stone at St. Thomas, near here, during a riot and killed. England Receives a Shaking Up Which Can Not Be Charged to the Dynamiters.

Terrestrial Disturbances on the Island Create Great Consternation and Cause Immense Damage.

The Situation at Berber Very Critical —A Movement in London for Gordon's Rescue.

Other Notes by Cable.

A LIVELY SHAKING UP.

LONDON, April 23.—An earthquake shock of great violence was felt in the eastern counties of England about 9:30 yesterday morning. The concussion seems to have lasted about half a minute in Essex and Suffolk, where the most damage was done. The first symptom was a deep rumbling sound. This was speedily followed by a quaking and shaking of all the buildings. Church bells sounded, tall chimney stacks crashed in ruin to the earth and other lofty structures were destroyed. At Colchester, where the greatest disturbances seem to have occurred, a child was killed and a woman's skull fractured by falling bricks. Many persons who were on the streets had narrow escapes. It is impossible to estimate the damage in that town alone. In some of the streets traffic has been forbidden, as some of the buildings have been so badly shattered as to be considered dangerous. The spire of one of the largest churches in the place fell with a crash. The side walls of many houses near the town were shaken out. It is estimated that the damage in and about the town will be fully $20,000. The fine old parish church at Langanhoe was demolished, and the houses as badly damaged as though the town had passed through a bombardment. The damage at Wivenhoe will be $4,000. At Coggleshall a number of school-girls rushed panic-stricken into the streets when the shock occurred and many of them were seriously if not fatally injured by falling debris. At Southend the earth trembled for miles around, windows in buildings were broken, chimneys dashed to the earth, and crockery and glassware smashed. At Ipswich the walls of houses were perceptibly shaken, plates rattled and bells rung. At Malden the town hall and private residences were swayed several times. In this city it is asserted that several business houses were so perceptibly shaken that the employes rushed into the streets. Telegraph instruments were shaken, and the shock was distinctly felt in Cheapside and Fleet street.

The wave passed from south to north, and its duration was from six seconds to half a minute. The people in the localities most affected were thrown into such a state of consternation that business has been suspended for a time. Hundreds rushed wildly from their houses, while hundreds more sought refuge in their cellars. Cries filled the air as chairs and tables were overturned, china and glassware rattled together and were shattered, and chimneys and pictures fell with a crash. The earthquake has caused a general feeling of alarm and insecurity throughout England, as it is feared more violent shocks will follow.

CAIRO, April 23.—It is reported on seemingly good authority that Berber has fallen into the hands of the rebels. Nothing is known as to the fate of the garrison and the inhabitants. The report has filled the Khedive and his Ministers with gloom and fears for Khartoum.

LONDON, April 23.—A movement is on foot to enlist 200 volunteers to rescue General Gordon. The idea originated in high social circles. Volunteers are expected to contribute their quota of the expenses. The enterprise will be carried out even if the war office refuses its sanction.

LONDON, April 23.—In the House of Commons Tuesday Dodson, Chancellor of the Duchy of Lancaster, confirmed the report that fifteen head of cattle had been in Cambridgeshire infected with foot and mouth disease. The inspector at Liverpool reported that the cattle were from America. Dodson asserted that the cattle could not have come from America, the inspector to the contrary notwithstanding, as all American cattle are slaughtered at the ports where they are landed.

VIENNA, April 22.—Hugo Schenck and Karl Schlossarek, the notorious servant-girl murderers, were hanged yesterday. Schenck asked that a philosopher instead of a priest be sent to him, but he afterward partook of the sacrament and prayed all night with the priest. Karl Schenck, who was implicated in the murder league, has been imprisoned for life.

SHANGHAI, April 23.—The disgrace of Prince Kung, for his dilatory action in the Tonquin affair, has been favorably received by the population of the Provinces. They believe that the accession of Prince Chun to control the Grand Council of the Empire is the forerunner of war. Defensive measures are already being taken along the coast, where much excitement prevails.

LONDON, April 23.—Parliament reassembled after the Easter recess. In the House of Lords, Earl Granville said the Government felt no fears for the personal safety of General Gordon. The position of Gordon was also the subject of an inquiry in the House of Commons. Mr. Gladstone stated that the Government had received no request from Gordon to dispatch British forces to relieve Khartoum. Gordon had simply suggested that a small cavalry force should be sent to Berber. He was unable to say whether Gordon has sent a telegram to Sir Evelyn Baring at Cairo, expressing indignation at being abandoned by the British Government, and announcing his determination to act henceforth with perfect independence of those who have deserted him.

MADRID, April 23.—The Spanish Government has ordered quarantine against all vessels arriving from Hindostan, to prevent the introduction of cholera.

Protestant Episcopal Bishops.

NEW YORK, April 23.—The House of Bishops of the Protestant Episcopal Church of the United States is in session for the purpose of electing a number of missionary Bishops. Among the Bishops present are Whipple, of Minnesota; McLaren, of Chicago; Walker, of Northern Dakota; Seymour, of Springfield, Ill.; Brown, of Fond du Lac, Wis., and Burgess, of Quincy, Ill.

Charles Frike, of Waukegan, Ill., Settles a Quarrel by Braining His Aged Wife.

Ellen Nicholson Killed at Boston by Her Husband During a Fit of Intoxication.

A Duel at Very Short Range Fought Between Maryland Brothers-in-Law—One Mortally Wounded.

Tales of Horror.

FATALLY WOUNDED BY HER HUSBAND.

WAUKEGAN, Ill., April 23.—About 6:30 o'clock yesterday morning Mrs. Edward Clark, of this city, was awakened by Charles Frike, an aged German, who lives across the street. He said his wife was sick, and when Mrs. Crawford went to his house she found Mrs. Frike lying in bed with her head terribly bruised and beaten. A physician was at once called, but he says the woman can not live. Frike, who is sixty-eight years old and in feeble health, was taken into custody, and confesses that he committed the crime. He says he and his wife quarreled on Sunday, and that she abused him all day. About dark they retired to rest, both occupying the same room, but sleeping in separate beds. At midnight he arose, and taking a club struck his sleeping wife three or four times over the head, his intention being to kill her and then drown himself, but he was too weak to walk down to the lake. The woman has been lying in an unconscious state since Sunday night unknown to any one. He seems rational, and manifests no regret at having committed the murder.

BOSTON, Mass., April 23.—James Nicholson, for many years President of one of the oldest boating associations at the north end, separated from his wife Ellen about three months ago. Yesterday he entered her father's house, and laughingly taking his fifteen months' old child in his arms tossed it in the air. Then with a loving caress he asked it which it loved best. Just then Mrs. Nicholson entered, and taking the child, asked her husband to follow her into an adjoining room. Five minutes later angry words were heard, followed by a pistol-shot and a woman's piercing scream. Mrs. Nicholson's brother rushed into the room, and found her lying upon a chair, with the child in her arms, and a bleeding bullet-wound in her breast. As the young man threw himself before her and her husband, Nicholson muttered: "Let me finish her," and fired a second shot over the young man's shoulder. The ball penetrated the woman's heart, and she fell dead to the floor. Her child, which she threw half across the room in her dying agony, lay screaming upon the carpet. Nicholson exclaimed: "I am a murderer," and putting his pistol into his pocket bounded out of the house and escaped. Up to a late hour last night he was still free. He had been drinking before he went to the house.

BALTIMORE, Md., April 23.—A fatal duel was fought Monday at Cockeysville, a small town in Baltimore County, the principals being two brothers-in-law named Charles Brown and Joshua Gill. The fight was brief and bloody. The distance was so short that the antagonists, thirsting for each other's blood, could almost have touched each other's finger-tips had they stretched out their arms to full length, and they glared at each other like wild beasts, their intense hatred being observable even at this dread moment.

But two shots were exchanged, and, as the second bullet sped out of Gill's gun Brown dropped mortally wounded. While a physician was examining the bleeding wound in his breast Mrs. Brown arrived on the scene. "My husband!" she shrieked, wildly, and fell prostrate on the body of the dying man.

Gill has since been arrested. The cause of the duel was an old feud that arose between the two a number of years ago out of a dispute over some property. It has been intensified since by family quarrels. Both parties to the mortal combat are citizens of prominence, and belong to one of the best families in the county.

Illinois Schools.

SPRINGFIELD, Ill., April 23.—The report of the State Superintendent of Public Schools shows the number of persons under twenty-one years of age in the State the 30th of June, 1883, to have been 1,540,918, against 2,529,318 at the corresponding date the previous year. The number of children of the school age (between six and twenty-one) was 1,046,936, as compared with 1,037,-567 in 1882. The number of pupils enrolled last year was 717,385, an increase of 4,041 over the previous year. The graded schools increased from 1,190 to 1,166, and the ungraded schools from 11,948 to 11,980. The number of teachers in the State was about 19,550. The average monthly wages of male teachers was $49, and of female teachers $38.90. The amount paid to all aggregated $5,318,058.

Tilden Declines Again.

ALBANY, N. Y., April 23. A party of leading Democrats and friends of Tilden, who have just come from Greystone, say that under no circumstances will he be a candidate for the Presidency, and under no circumstances will he accept if nominated. They regard this, his last refusal, as final, and say that the field is now left, so far as Democratic candidates from this State are concerned, to Flower and Cleveland.

Coyle Pays the Penalty.

GETTYSBURG, Pa., April 23.—John Coyle was hanged yesterday morning for the murder of Emily Myers on May 30, 1881. Up to Saturday Coyle maintained an attitude of comparative indifference, but the noise made in erecting his scaffold in the jail-yard seemed to excite him terribly, and the efforts of his spiritual advisor had no calming effect.

Warlike Times in Mexico.

Chandlar, in the First District, and Captain J. R. Smith, in the Fifth District, deputy internal revenue collectors, were nominated for Congress in their respective districts. The other districts will make Congressional nominations later. The permanent organization was perfected by the election of ex-Congressman John R. Lynch (colored) as Chairman. The delegates-at-large are ex-Senator B. K. Bruce, James Hill, R. F. Beck and Dr. J. M. Bynum. The first two are colored. They are uninstructed, but are favorable to Arthur. Democratic Success in Louisiana.

NEW ORLEANS, La., April 23.—The State and city elections passed off quietly, the vote being larger than usual in the city. The Democratic majority on the city ticket will be several thousand, except for Criminal Sheriff. Stevenson, the Republican candidate for Governor, ran ahead of his ticket probably 1,500 votes, the faction fight in the city having caused many of the parish Democrats to scratch McEnery and vote directly for Stevenson. McEnery will have over 7,000 majority in the city. Scattering returns from the State indicate that the Democratic State ticket will receive from 25,000 to 35,-000 majority, with an overwhelming majority in the Legislature.

THE WHISKY MEN.

The Western Export Association Arranges Its Difficulties and Formulates Plans for the Future.

CINCINNATI, O., April 23.—The Western Export Association or whisky pool is solid again. The Executive Committee met in the Burnett House yesterday afternoon and fixed things apparently to the satisfaction of all concerned. Sales were made at $1.10 on 'change yesterday. It is determined to keep the market at that figure for a short time and raise it to $1.12. An assessment on the running members of the association was arranged, which will bring into the Treasury over $130,000. This will about liquidate all the obligations of the association, which amount in round numbers to $140,000. It has assets of $194,000, in the shape of vouchers for advances on highwines, spirits and alcohol in bond. When this bonded stock is sold that money will return to the treasury of the association. The debts of the association will be paid by the assessment. The market price of whisky will be held at a fair figure, and by May 1 all the distilleries will cut down twenty per cent. and in all probability by June 1 an order will be issued for general suspension for thirty days. It is confidently believed that this action will give a market for all the bonded stock at a good price, and the association will then receive the money advanced on that stock.

There were fifty-four benefit assessments in that period. Last year there were 317 deaths, upon which eleven assessments, averaging $1.95 each, were made. During the year the net loss of membership by suspensions and withdrawals was 1,051, while the net gain was 7,543. The total membership is now 50,000.

A Fishing Party of Six Drowned.

VERPLANCK POINT, N. Y., April 23.—Sunday afternoon Jacob Keefer and his two boys, George Hilliker and his wife, and Nathaniel Wright started out in a row-boat to fish for shad in the Hudson River. Their failure to return caused their friends to organize a searching party, and yesterday morning the boat which the party had embarked was discovered with the side stove in, and on hauling the shad-net from the water they found Hilliker's body entangled in it. It is supposed that they were all drowned by being run down by a night boat.

Right-to-the-point

The Rev. J. E. Searles, of New York, is one of the most widely-known and highly esteemed of Methodist ministers.

Mr. Searles says: "I am impressed that it is a duty I owe to those afflicted with Rheumatism or Neuralgia, to say that a remedy has been discovered that is indeed a marvelous success. My son was greatly afflicted with Rheumatism, and suffered so severely that, at times, he was obliged to have morphine injected into his arm to get relief. While in this condition he discovered a remedy which effected immediate relief, and a permanent cure. He has since furnished it to many others with the same result. I have also furnished it to a number of persons suffering with Rheumatism, and the result has been immediate relief, and a permanent cure. Among others, I gave it to Rev. Wm. P. Corbit, pastor of the George St. M. E. Church, New Haven, Conn., who was suffering greatly with this terrible disease. I will give you his own words as written to my son, wishing him to publish the fact for the benefit of others suffering with the same disease."

What Mr. Corbit Says:

"New Haven, July 24, 1882.

"Mr. Searles: Dear Sir:—I wish to say for the benefit of all who are suffering with Inflammatory Rheumatism, that your medicine is infallible. I suffered for two months the most excruciating torture; lost 35 pounds of flesh, and was not out of my house for a month; I heard of your remedy, and was almost instantly relieved by it. If there is a specific for disease of any kind, yours most certainly is for Inflammatory Rheumatism in its severest form.

"Yours most respectfully, WM. P. CORBIT,
"Pastor George St. M. E. Church, New Haven, Conn."

Such is ATHLOPHOROS—a thorough and efficient cure for the worst cases of Rheumatism and Neuralgia.

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed.

ATHLOPHOROS CO., 112 WALL ST., NEW YORK.

The Emperor Louis Napoleon smoked only the finest cigars the world could produce. Prof. Horsford says the Emperor's cigars were made specially for him in Havana from leaf tobacco grown in the Golden Belt of North Carolina, this being the finest leaf grown. Blackwell's Bull Durham Smoking Tobacco is made from the same leaf used in the Emperor's cigars, is absolutely pure and is unquestionably the best tobacco ever offered.

Thackeray's gifted daughter, Anne, in her sketch of Alfred Tennyson, in Harper's Monthly, tells of her visit to the great poet. She found him smoking Blackwell's Bull Durham Tobacco, sent him by Hon. James Russell Lowell, American Minister to the Court of St. James.

In these days of adulteration, it is a comfort to smokers to know that the Bull Durham brand is absolutely pure, and made from the best tobacco the world produces.

Blackwell's Bull Durham Smoking Tobacco is the best and purest made. All dealers have it. None genuine without the trade-mark of the Bull.

ONE WHO WAS THERE.

Messrs. James W. Russell and Horace Priest have engaged in the manufacture of matches, which is a new industry in Decatur. They will build a factory on Mr. Russell's place, north of the coal shaft, and as their business increases, they increase their facilities. They will be able to manufacture a hundred gross per day, and will be amply prepared to fill all orders. Early yesterday morning we found a bright looking little boy sitting on the office steps. He said he had an item, and proceeded to give it up. There was to be a marriage last evening—a runaway match. One of the friends of the prospective bride had sent him to the office with the news. We thanked him—overwhelmed him in our delight—gave him a picture card and some old type, and sent him on his way rejoicing. After dinner the same youth came slowly into the office and informed us that the wedding had been indefinitely postponed. The bride, that was to be, had refused to toe the scratch, and there is weeping and wailing on West Marietta street.

Considerable corn is still ungathered, and much of it in the fields is said to be rotting.

For the last three days the dulcet notes of the robin, the chirp of the cricket, the twitter of the blue bird, the melodious tones of the sober, sedate bull-frog, the merry, enchanting hum of the inoffensive mosquito, the gladsome whistle of the plow boy, the silvery laugh of the thoughtless maiden, the bare feet of the small boy, the pathetic appeals of the lovers of ice cream, the spoony promises of meetings at the front gate, the joyous expressions of those who were anticipating an early picnic—all, all these have ceased for the present.

A Sudden Death.

The following from Tuesday's Quincy Journal in relation to the death of Henry Levi and the clandestine marriage of his daughter, Bertie, to Wm L. Milroy, will be of interest to the Review readers: "Mr. Henry Levi, an old and well known citizen of Quincy, died very suddenly at his home, at 90 South Sixth street, yesterday evening near the hour of 7 o'clock The immediate cause of Mr Levi's death is supposed to have been apoplexy, superinduced by receiving the news of the clandestine marriage of his youngest daughter, Miss Bertie, to Wm L Milroy, which occurred at the Fremont house yesterday afternoon about 4 o'clock. No member of the family had any knowledge of the marriage till the hack driver who took the couple to the depot took a note to Mr. Levi's residence, announcing the marriage and departure of the young lady and her husband. Upon hearing the news of his daughter's marriage, Mr. Levi fell from his chair and expired almost instantly.

Wm. L Milroy and his bride went to Springfield last evening via the Wabash, They were notified last night by wire of the death of Mrs. Milroy's father, and it is reported that they are at present in Decatur, Illinois. Mr. Levi was for a number of years engaged in the clothing business in this city. He was well known and highly respected by a large circle of acquaintances in this city. Minstrels.

The Washington Post says the following of Leon & Cushman's minstrels which will appear here Saturday evening. "Leon and Cushman presented a new and novel version of minstrelsy to a large audience last evening. The part, with its threadbare jokes, is done away with entirely, and the entertainment is provided in a two act burlesque, entitled "Sarah Barnum." in which the specialties of the performers are introduced. The burlesque, "Ill-Fed Dora," which is included in the bill, is a very laughable travesty of Sardou's great drama. The company is a remarkably good organization, each member of it being an artist of recognized ability. Besides Leon there are two very good female impersonators, Eugene and J. H. Surridge, who shared in the honors. Leon's songs and remarks were received with great applause, as were those of Frank Cushman. The costuming of the burlesque was really magnificent and something hitherto unknown in minstrelsy. Taken as a whole the performance was one of the most enjoyable of the kind seen in this city for a long time."

Popular prices, 25, 50 and 75 cents.
